You are currently enrolled at a University and want to enrich your knowledge with practical experience? You are curious by nature and want to expand your skills in your favourite language, PHP? If the answer is yes, we are happy to be working with you in the future. If you can add a presentation of your know-how and show us some of your work of programming a website or an app, you are the perfect fit for us.

### **What you will be doing**

- You will assist in programming websites, shops, landing pages, microsites and individual solutions (PHP Scripts) – and don't forget a neat and precise documentation of the work
- Technical solutions have to be constantly taken care of and secured neatly. So, be prepared to take on tasks that also focus on application management
- Let's not forget the technical support and occasional consultations for your colleagues on a daily basis

### **Skills and Qualifications**

- You are currently enrolled at a University in the field of computer science, media studies or something similar
- You are experienced in programming websites with a basic knowledge of PHP
- You feel secure in the use of HTML5, CSS3, JavaScript, PHP, MySQL
- A basic knowledge of servers (Apache and others) is beneficial
- You have a keen sense of responsibility and team spirit

### **Skills and Qualifications**

- Appealing conditions and opportunities to expand your skill set in a growing agency
- Varying tasks in a motivational environment
- A strong team spirit and fun at work
- An extensive orientation programme to get to know our projects
- Co-working with interdisciplinary experts
- Coffee, tea, water and an occasional beer during the after-hours are included
