

# RISE<sup>UP</sup>

## **RISE CoE YEAR-ROUND PAID INTERNSHIP PROGRAM**

---

### **Internship Topic: Creative Industries with Emerging Technologies for Virtual and Augmented Reality applications.**

#### **Short Description:**

We are looking for students interested to work with Augmented and Virtual reality technologies blended with elements from the cultural and creative industries. The work will focus on: a) developing modules such as facial/image/object recognition to be embedded on augmented reality glasses and b) on virtual reality integrated with haptic feedback to build applications and/or creative installations.

**Type:** Internship Project/BSc/MSc Thesis

#### **Responsible MRG**

The successful candidate will be based at the “ITICA: Immersive Technologies for Intelligent and Creative Applications” MRG of RISE.

#### **For more information please contact:**
